LOVE POTION

INGREDIENTS

- 400 gram chopped seedless watermelon
- 250 gram peeled pineapple, chopped coarsely
- 1 long fresh red chilli, stem removed, chopped coarsely
- ¼ cup (60ml) pure pomegranate juice
- 1 teaspoon honey

NOTE

Long red chillies can vary in their level of heat so if you don't like things too spicy, have a taste before you juice the chilli and add more or less accordingly. If you prefer, remove the seeds and membrane from the chilli first as these contain most of the heat.

INSTRUCTIONS

1. Push the watermelon, pineapple and chilli through a juice extractor into a jug.
2. Add pomegranate juice and honey.
3. Stir to combine.

INFUSING ELEGANCE: 'STRAWBERRY LEMONADE' THC TWIST

1. Carefully measure the desired amount of "Strawberry Lemonade" Select Squeeze using the bottle's unique fill-and-pour reservoir to ensure precise dosing. For subtle enhancement, start with a smaller dose and adjust accordingly.
2. Stir the mixture gently to ensure the "Strawberry Lemonade" enhancer is evenly distributed throughout the beverage. The Nano-emulsification technology allows the THC to blend smoothly and evenly.
